CLASS REVIEW

01/22/2018

What did I know before the class? What have you learned after the class?

I knew quite a bit about being a good Script Supervisor, after all I was taught by the same person that taught Dawn. However, with dawn's class I went from being good to being GREAT.

Your thought on the homework given.

The homework was challenging, it made me have to come with my A game.

How did you like being online?

Being online had it ups and downs, trying to figure out how to configure the hardware I bought was a pain in the neck. However, being able to interact with my classmates (who I hope to stay in contact with) was a lot of fun. I really like the fact that I can go back and watch ANY lesson as many times as needed.

What do you think about the teacher?

Dawn is a very caring and passionate person. She cares enough about her students to DEMAND the very best they can give. She reminds me of a mother, A mother knows each one of her children well enough to know when a certain child is slacking she pushes that child to dig deep and do a little more. A mother that worked all day/week on the set of her on project putting in at least 80 hours a week and still finding time and energy to give some to her children/class.
THANKS DAWN.

What is your confidence since completing this course?

OFF THE CHARTS!

How do other industry professionals respond since talking this class?

They are amazed at the detail and presentation of the various forms.

Do you have anything else you want to say?

I loved the one-on-one interviews.
