

CLASS REVIEW

- ❖ **What you knew before the class and what you know now:**

Before I started the class, I had read a couple of books, attended a course at the London Film School for prepping the script and shadowed a couple Script Supervisors, but mostly I had learnt on the job. The paperwork side of things I found very straight forward, but I was less sure about what was important; what were my priorities as a Script Supervisor; what did I need to pay most attention to, what mattered and what didn't matter as much. I didn't want to get into any bad habits. I knew that I needed something to guide and shape me as a Script Supervisor.

Now I feel more confident in my ability as a Script Supervisor. I know what is important and what my priorities and duties are. My paperwork presentation has improved greatly. I am much more conscious of how my work looks and I take much more pride in it.
- ❖ **Your thoughts on the Homework given**

There's a lot! ☺ Which is wonderful. It's always a challenge. You have to put in the time to really do it thoroughly, ensuring that you gain the most from it.
- ❖ **How did you like it being online**

It's fantastic that it's online. The material is easily accessible; giving you the flexibility to fit into your schedule, take it at whatever pace you need to
- ❖ **What do you think about the teacher**

Dawn is a very giving teacher. I don't know how she manages to teach and work, but she is always has time for her students. She pushes you to be the best Script Supervisor you can be.
- ❖ **What is your confidence level since so far.**

The course has given me the confidence I needed to believe in my abilities as a Script Supervisor, which in turn has made me better. I feel that I am taken more seriously as a result.
- ❖ **How do other industry professionals respond to you since taking the course**

I am getting good feedback from industry professionals, in particular Assistant Editors. They like my noes, they find them clear and always have the information they need. This is testament to Dawn's teachings and The T.A.O.C methods.
- ❖ **Anything else you may want to say**

I started this course over 2 years ago, coming close to 3! The last couple years have thankfully been very busy and I have been stepping up and onto bigger and bigger jobs. Dawn provided me with what I needed to do this and I am so thankful that I found T.A.O.C. and that I have Dawn as my mentor. I am not the best at managing my time and consequently I have gotten a bit lax with my studies... no fault but my own. But Dawn has always been there, giving me that little prod that I need and inspiring me to do better.
